

## System requirements & Network settings

### Operating System

- Windows 7 or higher (64-bit only)
- Mac OS X 10.10 (Yosemite) or newer
- Linux (unsupported, not available yet)

### Hardware

- 1.5 gigahertz (GHz) or faster 64-bit (x64) processor
- at least 2 GB of RAM
- Microphone and speakers (headset recommended)
- Webcam

### Internet connection

- Cable or DSL connection with 6 MBit/s downstream (16 MBit/s recommended)

### Network

A wired network connection is preferred over a wireless one.

- Port 5380 Data service (TCP)
- Port 5387 Audio service (UDP)
- Port 5388 Video service (TCP)
- Port 5389 Realtime event channel (TCP)

Until further notice we recommend to open the port range 5380-5390 (outgoing, TCP & UDP).
