CONFERENCING IN
TV-QUALITY

IN-SYNC
FACE-TO-FACE
NETWORKING
AND IN-SYNC VOICE
TRANSMISSION

WORLDWIDE
INTUITIVE TO USE,
AVAILABLE WORLDWIDE
AND VERSATILE

alfaview® is an in-sync high-tech video conference solution that enables you to hold online meetings across the world with live video transmission.

100 OR MORE PARTICIPANT VIDEOS

In the alfaview® live conference suites, 100 or more people worldwide can be connected and transmitted in real-time with video and audio.

THE VIRTUAL CONFERENCE SUITE

All participants are connected face-to-face via alfaview® in an online suite with image and audio using common PC technology. In the virtual suite, all conference participants can see and hear each other and work on projects as a team from various locations.

The clear design and user-friendly range of functions make the software self-explanatory and intuitive for users.

CUSTOMIZED COMPLETE SOLUTION

alfaview® can be used as an audiovisual complete solution for different areas of application and offers the opportunity to use a customized virtual conference suite for your individual business area.

As an in-sync, high-tech solution, alfaview® can be used for both professional business meetings and online classroom teaching. With alfaview®, companies, universities, training institutes and public institutions have the opportunity to network with clients, collaboration partners and other companies worldwide, audiovisually and according to their specific requirements.

www.alfaview.com

AUDIOVISUAL NETWORKING

Video and audio are transmitted synchronously worldwide.

SIMPLE AND CLEAR DESIGN

The software is self-explanatory and intuitive to use.

WORLDWIDE TRANSMISSION

100 or more users worldwide can be connected and transmitted in real-time.

FACE-TO-FACE ON ALL COMPUTERS

alfaview® is available for all common PCs.

alfaview® FOR COMPANIES

ACCESSIBLE
PARTICIPATION IN
MEETINGS FROM HOME,
AT THE OFFICE OR WHILE
OUT AND ABOUT

With alfaview®, we are giving you the opportunity to make your corporate communication efficient and direct. Within your alfaview® company account, you can illustrate your company structure and thus improve communication across sites.

In financial terms, networking via alfaview® results in a significant reduction of travel costs and an optimization of the working hours of your employees. Meetings can take place easily and quickly in alfaview® and no long journeys are needed.

The optimized communication situation within your company improves existing workflows and projects can be implemented in a more time-efficient manner.

alfaview®

THE DIGITAL OFFICE OF THE FUTURE

**VIRTUAL NETWORKING
CREATION OF HOME
OFFICE WORKPLACES
AND FLEXIBLE
PROFESSIONAL TRAINING
FOR YOUR EMPLOYEES
FROM THEIR WORK
STATIONS**

**PROCESS OPTIMIZATION
REDUCTION OF
TRAVEL COSTS AND
OPTIMIZATION OF
COMPANY PROCESSES**

Digitalization has led to a growing networking of companies. Industry and economy are increasingly demanding flexible work and communication processes in order to react quickly and flexibly to the dynamics of today's working environment. alfaview® offers your company cost-efficient networking via video technology.

- Location-independent overall networking of your company via video conference technology
- Online meetings with external collaboration partners
- Inclusion of field service and sales employees via video conference technology
- Creation of home office workplaces
- Accessible integration of disabled employees within your company
- Qualification of employees with audiovisual classroom teaching via alfaview®
- Opportunity to recruit expert personnel regardless of the location
- Establishment of global collaborations and partnerships via video technology
- Flexible opportunity to provide content
- Project goals can be achieved quickly
- Higher productivity of your employees

With alfaview®, small and medium-sized companies, as well as global corporations, have the opportunity to network in a professional online meeting – worldwide and in real-time.

alfaview®

FOR TRAINING INSTITUTES, PUBLIC INSTITUTIONS AND UNIVERSITIES

**LOCATION-INDEPENDENT
OPPORTUNITY TO TAKE
PART IN COURSES FROM
THE WORKPLACE OR
FROM HOME**

Whether it is software training, management qualifications, commercial seminars or language courses – alfaview® makes it possible to offer your own courses as virtual classroom seminars. You have the opportunity to connect your clients within the framework of your own course portfolio in an alfaview® training room across various locations and instruct live. Course participants can attend your courses from their work stations or from home with alfaview®.

As part of the qualification via alfaview®, all course participants can see each other in a live video stream and work together on interactive projects in a real-time dialogue.

YOUR BENEFIT

Multimedia networking via video technology lifts the regional restriction on course participation and creates a location-independent client base.

Because of the opportunity to globally pool participants in alfaview®, you can make your own seminars more efficient, make your range of courses available globally and have your clients take part in courses accessibly and remotely.

With alfaview® it is irrelevant where your clients or speakers are currently located. Video technology allows you to acquire the most qualified teachers for your seminars and increase your customer base with an international presence.

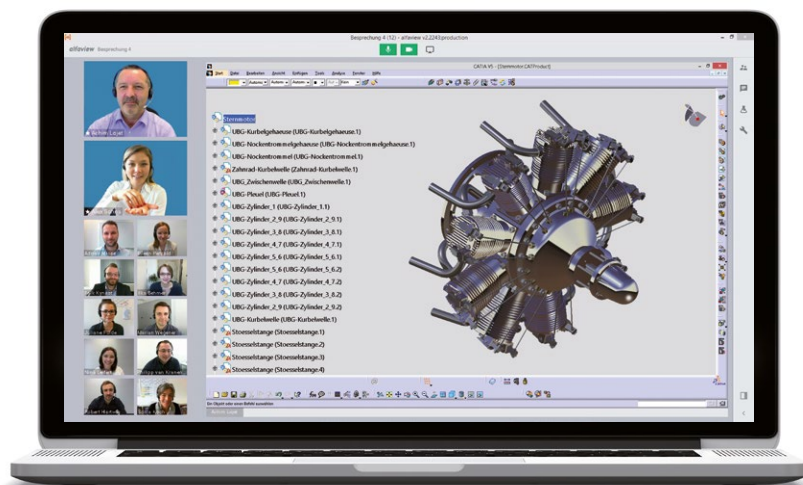

ACCESSIBLE PROFESSIONAL TRAINING FOR THE HEARING-IMPAIRED

INCLUSION

CONFERENCES OR
TEACHING EVENTS
CAN BE TRANSLATED
INTO SIGN LANGUAGE
IN REAL-TIME

alfaview® gives you new options in the field of accessible qualification. alfaview® makes it possible to add a live sign language interpreter to the course for the hearing-impaired.

This allows hearing-impaired people to take part in regular training events.

SAP EDUCATION USES alfaview® FOR BUSINESS TRAININGS

**PROFESSIONAL ONLINE
TRAININGS IN TV-QUALITY
WITHIN THE VIRTUAL LIVE
CLASSROOM VIA alfaview®**

**THE COURSE
PARTICIPANTS ARE
ABLE TO TAKE PART IN
PROFESSIONAL ONLINE
TRAININGS VIA VIDEO
TECHNOLOGY WITHOUT
HAVING TO TRAVEL LONG
DISTANCES OR GENERATE
HIGH TRAVEL EXPENSES**

SAP Deutschland SE & Co. KG has been offering its own training courses with the video conferencing system alfaview® since March 2016. The new training concept via alfaview® allows SAP Deutschland SE & Co. KG to offer its seminars independently of the location of the course participants. The course participants are able to take part in professional online trainings via video technology without having to travel long distances or generate high travel expenses.

**TIMO SCHÜTTE, Head of Education Delivery
DE & MEE at SAP Deutschland SE & Co. KG**

„ The video conferencing solution alfaview® provides unique face-to-face conferences and training possibilities. Therefore, SAP has decided to deploy the product alfaview® for the entire market of Germany, Austria and Switzerland. The benefit of alfaview® is the following: All participants of a course are able to see and hear each other and to work together interactively within the virtual classroom. Furthermore, our clients are now able to conveniently participate in meetings or seminars from home or from their workplaces. Our clients benefit from a professional learning environment within alfaview® that enables a high learning success. “
