

alfaview®

VIDEO CONFERENCING SYSTEMS

SYSTEM REQUIREMENTS AND NETWORK SETTINGS

Operating System

- ▶ Windows 7 or higher (64-bit only)
- ▶ Mac OS X 10.10 (Yosemite) or newer
- ▶ Linux (unsupported, not available yet)

Hardware

- ▶ 1.5 gigahertz (GHz) or faster 64-bit (x64) processor
- ▶ at least 2 GB of RAM

- ▶ Microphone and speakers (headset recommended)

- ▶ Webcam

Internet connection

- ▶ Cable or DSL connection with 6 MBit/s downstream (16 MBit/s recommended)*

* The automatic bandwidth control in alfaview ensures that the upper limit of 6 MBit/s is not exceeded, regardless of the number of participants. This calculation takes into account one active screen share. Each additional screen share adds another 1.5 MBit/s to the overall bandwidth consumption.

Network

- ▶ A wired network connection is preferred over a wireless one.
- ▶ Please make sure that the website **alfaview.com** is accessible.

The following port shares are required to be able to use alfaview®:

Protocol	Ports	Source	Target
TCP	80, 443	Browser, alfaview® Client	alfaview.com, *.alfaview.com
TCP	5380 – 5390, 80, 443	alfaview® Client	185.245.100.0/22 185.127.28.0/22 18.196.85.128/25 195.201.44.128/25 88.99.123.0/26 2a0c:3c0::/32
UDP	5380 – 5390	alfaview® Client	185.245.100.0/22 185.127.28.0/22 18.196.85.128/25 195.201.44.128/25 88.99.123.0/26 2a0c:3c0::/32
